Withdrawing From A College Class

- You must have a total of 7 classes. If you Withdraw from a class, you will have an additional NHS class added to your schedule
- If you Withdraw from a course you cannot receive funding to take that course again (for free)
- A student is no longer eligible to receive program funding after withdrawing from Dual Enrollment courses two times.
- Withdrawal = W (i.e. no impact to your HS or college GPA) Withdrawal Failure = WF (i.e. this counts as an F for HS and college)
- Regardless of whether or not the W/WF is calculated into the high school GPA, it does count toward the student's Satisfactory Academic Progress percentage (needs to 67% completion rate). This can impact their ability to access financial aid post high school graduation.
- Please speak with a college academic advisor and financial aid advisor prior to withdrawing.
