The ACT and SAT are offered 6-7 times a year.

It does not matter which test you take (all schools accept both).

Juniors and seniors who receive free or reduced lunch will qualify for a fee waiver. Waiver requests can be found on the NHS Counseling Suite website. Students must complete a Google form to request a fee waiver. USG institutions are not test optional for the freshman class of 2022.

Some colleges moved to test optional prior to and during the 2019-20 school year. Some have chosen to remain test optional. You will need to check the admissions requirements for each institution.

Some scholarships still require test scores (ex. Zell Miller Scholarship).
USG Admissions Requirements (for most four-year institutions):
ACT: Minimum 17 English 17 Math
SAT: Minimum 480 Evidence Based Reading & Writing; 440 Math

Schools with selective admissions (such as Georgia College and State University, Georgia Tech, and University of Georgia) receive a larger number of applications from academically qualified students than they have the capacity to admit and enroll. In order to be competitive for admissions, applicants will need to have strong academic credentials including strong SAT/ACT scores (well above the minimum scores) and rigorous coursework.

These schools typically use a holistic review process which includes consideration of additional factors such as recommendations, essays, community involvement, and interviews.
